Professional Summary

Creative and detail-oriented Front-End Developer with 1 year of experience designing and building responsive, user-friendly web applications. Skilled in modern frontend technologies with a strong focus on performance, scalability, and UI/UX.

Technical Skills

Languages & Tools: HTML5, CSS3, JavaScript, TypeScript, Git, GitHub

Frameworks & Libraries: React.js, Next.js, Redux, Material-UI, Bootstrap, Framer-Motion

Experience

Frontend Developer

March 2024 – April 2025

EVD Technology LLP

Korba, Chhattisgarh

- Developed responsive web applications using **React.js** and **Next.js** with **JavaScript** and **TypeScript**.
- Designed and implemented user interfaces using **Material UI (MUI)** and **Bootstrap**, ensuring cross-browser and mobile responsiveness.
- Created interactive and smooth UI animations using **Framer Motion** for enhanced user experiences.
- Followed component-based architecture and reusable code patterns for efficient development and maintainability.
- Utilized **Git** for version control and collaborated on projects through **GitHub**, managing branches, pull requests, and issue tracking.
- Worked with APIs to fetch and display dynamic data within frontend applications.
- Ensured code quality through debugging, testing, and adherence to best practices in frontend development.
- Collaborated effectively in **cross-functional teams**, participating in code reviews, stand-ups, and agile development processes.

Projects

◆ Project: TexKart

- Developed and set up two dynamic web platforms from scratch (Buyer & Seller) using Next.js, TypeScript, Material-UI, Redux, and Framer Motion. Worked with backend team for API integration and real-time booking.
- Enabled sellers to create and manage products, which are displayed on the buyer site for seamless purchasing.

◆ Project: Uniklinger

- Built responsive, cross-browser compatible web pages using HTML, CSS, JavaScript, React.js, and Material-UI.
- Integrated APIs and dynamic content in collaboration with backend developers.
- Conducted thorough testing and debugging for performance and reliability.

◆ Project: One Stop Services AU

- Transformed Figma designs into responsive web pages.
- Ensured smooth functionality across browsers and devices post-launch.

◆ Project: Hems Corporation

- Created service, portfolio, and contact sections using React.js and Material-UI.
- Optimized performance through image compression and efficient coding.
